A broad array of institutions and laws have been enacted in different places and at different times to block economic elitism and protect democratic self-rule.

This book presents a number of such cases, historical as well as contemporary, where solutions to the problem of political and economic elitism have successfully been practiced. It then compares these cases systematically, to determine the common factors and hence the necessary conditions for ensuring, and protecting self-rule and equal opportunity. This book encourages the idea that alternatives to representative, capitalist democracy are possible and can be put to practice.
